

About *Aushadhi*[™]

Aushadhi is a HMIS for hospitals and nursing homes designed and developed by **Soncepto Software Solutions Pvt. Ltd.** The solution is offered in “on-site” model. The HMIS is fully customizable to make you feel personalized while working it and is highly modular in nature.

Challenges faced by Hospitals

1. Lack of single integrated view to patients for Billing, Collection, Patient Medical History, Discharge Detail etc.
2. Cumbersome query handling for instant decision of Bed Allocation for patients and request for the Bed Transfers.
3. No general and standardized Health Packages for the OPD & IPD patients.
4. Complicated work flow management for all functional areas.
5. Lack of authentication & verification of entries through Audit Trail Facility.
6. No system to search any type of Information related to patients history.
7. Problem in managing attendance and smooth shift management.
8. Difficult and time consuming comprehensive reporting .
9. Lack of centralized backup options.
and the list goes on.....
